KALAMAZOO DISTRICT OFFICE

PHILLIP D. ROOS
DIRECTOR

November 2, 2023

Mike Lloyd
EPSI
1125 Morren Court
Wayland, Michigan 49348

SRN: P0893, Allegan County

Dear Mike Lloyd:

VIOLATION NOTICE

Under the State of Michigan's Air Pollution Control law and the federal Clean Air Act, a Renewable Operating Permit (ROP) program has been developed and implemented in Michigan. This program requires major sources of air emissions to obtain a facility-wide air use permit. This permit serves as a mechanism for consolidating and clarifying all air pollution control requirements which apply to the source. Rule 210(4) of the administrative rules promulgated under Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended, requires major sources to submit an application to the Department of Environment, Great Lakes, and Energy (EGLE), Air Quality Division (AQD) not more than 12 months after a stationary source commences operation as a major source, as defined by Rule 211(1)(a).

Based on the commencement of operation of EPSI located at 1125 Morren Court, Wayland, Michigan an application for a ROP should have been submitted to the AQD by October 26, 2023. To date, the AQD has not received this application. This constitutes a violation of Rule 210(1) which requires that a source not operate any emission units at a source required to obtain a ROP unless a timely and administratively complete application has been received by EGLE. Because of the failure to submit a timely and administratively complete application in accordance with the requirements of Rule 210(4), this facility has failed to obtain an "application shield."

Please submit a complete application within 60 days from the date of this letter.

If EPSI believes the above observations or statements are inaccurate or do not constitute violations of the applicable legal requirements cited, please provide appropriate factual information to explain your position.

Mike Lloyd
EPSI
