Dear Scott Hosford:

**VIOLATION NOTICE**

On October 17, 2023, the Department of Environment, Great Lakes, and Energy (EGLE), Air Quality Division (AQD), conducted an inspection of Wolverine Scrap Metal Corporation located at 1721 Chicago Drive, Wyoming, Michigan. The purpose of this inspection was to determine Wolverine Scrap Metal Corporation's compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); the Air Pollution Control Rules; and to investigate a recent complaint which we received on October 3, 2023, regarding smoke attributed to Wolverine Scrap Metal Corporation's operations.

During the inspection, staff observed the following:

Process Description	Rule/Permit Condition Violated	Comments
Production portable torch cutting equipment	Rule 201	Portable torch cutting operation no longer meets Permit to Install exemption Rule 285(2)(j) after reconstruction of the emission unit.

In 2022, Wolverine Scrap Metal Corporation was issued two violation notices for operating torch cutters in violation of AQD rules. During the October 17, 2023, inspection, Wolverine Scrap Metal Corporation was still conducting production-based portable torch cutting activities outdoors without an appropriately designed and operated enclosure and fabric filter. This is a violation of Rule 201 of the administrative rules promulgated under Act 451.
