Brandon Craven, Director of Plant Operations
Molded Plastic Industries, Inc.
2382 Jarco Drive
Holt, Michigan 48842

SRN: N0034, Ingham County

Dear Brandon Craven:

VIOLATION NOTICE

On June 23, 2026, the Department of Environment, Great Lakes, and Energy (EGLE), Air Quality Division (AQD) received permit records which were requested during a July 18, 2025, inspection of Molded Plastic Industries, Inc. (Company), located at 2382 & 2345 Jarco Drive, Holt, Michigan. The purpose of this records review was to determine the Company's compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended, MCL 324.5501 *et seq*; the Air Pollution Control Rules, Mich Admin Code, R 336.1101 *et seq*; and both the conditions of Permit to Install (PTI) No. 131-22 v1.0 and the conditions of Renewable Operating Permit (ROP) No. ROP0000032 v5.0.

Violations:

During the records review, the following violations were observed:

Process Description	Permit/Rule Violated	Comments
Manual application of resins.	PTI, EUMANUAL, Special Condition (SC) II.1	The Styrene content of the resin 595838 (37.1%) exceeds the material limit on Styrene for Production-type resins ($\leq 36\%$).
Mechanical application of resins.	ROP, EU-SprayBoothRS1, SC II.1	The Styrene content of the resin Corr 52-229-599 (45.9%) exceeds the material limit on Styrene for Production-type resins ($\leq 39\%$).

VIOLATION NOTICE

Brandon Craven

Molded Plastic Industries, Inc.

Page 2

September 9, 2026

Process Description	Permit/Rule Violated	Comments
Permit to Install	R 336.1201	Incorrect installment of permitted equipment.

The conditions of the PTI, EUMANUAL, SC II.1 limit the material content of Styrene to less than or equal to 36%.

The report or records provided demonstrate that the material content of Styrene from the resin 595838 used in EUMANUAL process equipment is 37.1%, which exceeds the permitted material limit. This is a violation of the PTI, EUMANUAL, SC II.1.

The conditions of the ROP, EU-SprayBoothRS1, SC II.1 limit the material content of Styrene to less than or equal to 39%.

The report or records provided demonstrate that the material content of Styrene from the resin Corr 52-229-599 used in EU-SprayBoothRS1 process equipment is 45.9%, which exceeds the permitted material limit. This is a violation of the ROP, EU-SprayBoothRS1, SC II.1.

Additionally, at this time the Company has failed to submit an acceptable application for a PTI that addresses the changes necessary to satisfy Rule 201 for the renewal of their ROP as part of an ongoing compliance action. Continued failure to do so may result in further enforcement actions.

Next Steps:

A written response should be submitted through [MiEnviro Portal](#) by **September 30, 2026**, and include all of the following:

- the dates the violations occurred;
- an explanation of the causes and duration of the violations;
- whether the violations are ongoing;
- a summary of the actions that have been taken and are proposed to be taken to correct the violations and,
- the dates by which these actions will take place; and what steps are being taken to prevent a reoccurrence.

VIOLATION NOTICE

If the Company believes the above observations or statements are inaccurate or do not constitute violations of the applicable legal requirements cited, provide appropriate information to explain your position in your response to this letter.

Thank you for your attention to resolving the violations cited above and for the cooperation that was extended to me during my records review. If you have any questions regarding the violations or the actions necessary to bring this facility into compliance, please contact me at the number listed below.

Sincerely,

A handwritten signature in black ink that reads "Loren Hicks". The signature is written in a cursive, slightly slanted style.

Loren Hicks
