Response to Eagle Violation.

Owen in response to our violation On EUMINICLEAN oven, there was a misunderstanding on what data needed to be collected. We did keep a manual log of hours the oven ran, but we did not monitor the temperatures during this period. The corrective action is we have the oven down at this time, and we are getting quotes on a new data collection system added to the oven to make it easier to download the required information.

The EMUINICLEAN oven will remain down until it is moved to our new facility at 42827 Irwin drive, Harrison township Mi,48045. We should have the new data collection unit installed at that time.This move is scheduled for the Beginning of December. Please let me know if you have any questions.

Best regards

John Turnbull
