SRN: P0788, Gratiot County

Dear Bridgette Rillema:

VIOLATION NOTICE

On December 5, 2025, the Department of Environment, Great Lakes, and Energy (EGLE), Air Quality Division (AQD) received the EUDRYING1 emissions test report for ZFS Ithaca, LLC (Company), located at 1266 East Washington Road, Ithaca, Michigan. The purpose of this report submittal was to demonstrate the Company's compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended, MCL 324.5501 *et seq*; the Air Pollution Control Rules, Mich Admin Code, R 336.1101 *et seq*; and the conditions of Renewable Operating Permit (ROP) No. ROP0000652 v1.0.

Violations:

During the report review, the following violations were observed:

Process Description	Permit/Rule Violated	Comments
EUDRYING1 68 MMBtu/hr grain rack dryer	ROP0000652 v1.0, EUDRYING1, Special Condition (SC) I.4., R 336.1205(1)(a) and (3) (Rule 205), and 40 CFR 52.21(c) and (d).	Emission Limits - EUDRYING1 Emission Limit exceedance of the Particulate Matter (PM) 2.5 6 pounds per hour (pph) limit during Run 1 of testing.

The conditions of the ROP, EUDRYING1, SC I.4 limit the emissions of PM2.5 to 6 pph.

VIOLATION NOTICE

Bridgette Rillema

ZFS Ithaca, LLC

Page 2

August 24, 2026

The report provided demonstrates that the emissions of PM_{2.5} from the EUDRYING1 process equipment during Run 1 of testing, extrapolated to all 5 stacks, are 10 pph, which exceeds the permitted emission limit. This is a violation of the ROP, EUDRYING1, SC I.4.

Next Steps:

A written response should be submitted through [MiEnviro Portal](#) by **September 14, 2026**, and include all of the following:

- the dates the violation occurred;
- an explanation of the causes and duration of the violation;
- whether the violation is ongoing;
- a summary of the actions that have been taken and are proposed to be taken to correct the violation and
- the dates by which these actions will take place; and what steps are being taken to prevent a reoccurrence.
- a Malfunction Abatement Plan (MAP) which includes a preventative maintenance program, containing, at a minimum, a description of the items or conditions that shall be inspected, the frequency of the inspections, maintenance or repairs, and a description of the method of monitoring or surveillance procedures for maintaining the internal chambers/components of the grain dryer to prevent the build-up that appears to have contributed to the Emission Limit exceedance during Run 1.

If the Company believes the above observations or statements are inaccurate or do not constitute violations of the applicable legal requirements cited, provide appropriate information to explain your position in your response to this letter.

Thank you for your attention to resolving the violation cited above and for the cooperation that was extended to the AQD during the week of emissions testing. If you have any questions regarding the violation or the actions necessary to bring this facility into compliance, please contact me at the number listed below.

VIOLATION NOTICE
